

SYNTHOCAM 3

The must have CCTV system for surveying PE and Metallic live gas mains

- Helps mains repair and replacement teams to survey over 180m from a single excavation.
- Significantly improves rate of pipe replacement.
- Quickly locates in-pipe obstructions, poor pressure conditions, joints and defects that cause gas leakage.
- For use in 4" to 10" diameter metallic and 63mm to 315mm PE.
- Low pressure and medium pressure metallic and PE up to 2 barg.

Full PE and Metallic SynthoCAM system

- Obtain instant in-pipe information
- No interruption to customer supplies
- Improve customer satisfaction
- Reduction in environmental impact

- Modular systems to suit metallic mains and PE pipelines.
- Range of high res cameras for different pipe sizes.
- Optional upgrades including Ultralife cobra, meterage and GPS.
- Choice of display and data storage systems.
- All systems include comprehensive training.
- Reduced maintenance costs.
