

SYNTHOCAM S195

Camera system for use in 3" live gas metallic mains and 50-75mm PE pipes

- This system consists of a 4.5mm ultralife cobra, 19.5mm camera and a 3" adaptor foot.
- To be used in conjunction with SynthoCAM 3's Vertical/Angled insertion head for metallic mains or Vertical insertion for PE pipes and visual display unit.
- Significantly reduces excavation, reinstatement and associated activities.
- Can survey up to 80m from a single excavation.

- For use in live gas pipes with pressures up to 2barg.
- Access via a 3/4" BSP drilling.
- No need for a wrap around and clip on 3" main.
- Compatible with UK GDN D7.
- Comprehensive training and after sales support available.

- Quickly diagnose in-pipe obstruction, poor pressure conditions and gas leakage
- Live access system means no interruption to customer supplies leading to improved customer satisfaction
- Reduction in excavation minimising environmental impact
