

SERVICECAM PRO

A live gas CCTV system for surveying PE, ServiFlex® and Metallic Services

- Fast diagnosis of poor pressure problems due to obstructions, water ingress or incorrect installation of services.
- For use in 17.5mm - 32mm PE and Serviflex® and metallic ¾" to 2" services with live gas pressure of up to 4bar.
- Entry system through ECV allows for 'live' inspection of up to 20m of pipe.
- Features a new tighter spring and the recently developed ServiGuides that help the system navigate around up to three bends in metallic service pipes.
- New lock and reel function on the frame makes deployment, use and tidying up simpler and quicker.
- Now includes meterage to help to pinpoint the exact location of issues.

New enclosed cable reel

- Obtain instant in-pipe information
- No interruption to customer supplies
- Improve customer satisfaction
- Reduction in environmental impact
- Compact design for easy storage
- On display accurate meterage

- High quality 9.5mm camera, featuring the latest LED lighting technology for improved vision.
- System includes the handheld Synthotech Display Unit (SDU), which is rechargeable from mains or 12v in-car.
- Battery designed to last 5 hours continued use from full charge.
