

# SYNTHOCAM RANGE

A range of live gas CCTV systems for surveying metallic pipes

## SERVICECAM PE+M

- Up to 20 meter insertion from an ECV
- 5 hour battery life
- Portable 5.4" screen
- Insertion round up to 3, 90 degree short radius metallic bends
- Variety of Serviguides for different valve types

## SYNTHOCAM S195

- Live access into 3" pipe through D/4 access
- Up to 80m insertion from a single direction
- Near full circumferential vision
- Can be used on PE pipes

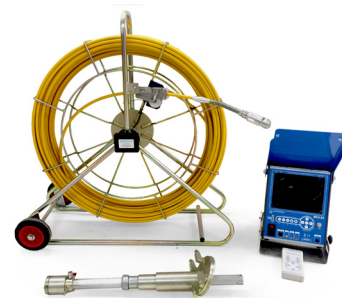

## SYNTHOCAM 3

- Live access into pipes meeting D7 requirements - 4" to 8"
- Range of cameras 24, 30, 34 and 49, cameras available
- Range of insertions available depending on requirements
- Compatible with ALH, Pipetech and WASK drilling systems

## SYNTHOCAM TITAN

- From 8" to 24" full circumferential vision system
- 9mm and 15mm diameter rods for maximum push distance
- Pan and Tilt camera. Pans 270° & tilts 360°
- Patented Rotate to Angle insertion, only requires 2" drilling

## SYNTHOTRAX

- From 18" to 48" full circumferential vision system
- Survey up to 400m from a single excavation
- Pan and Tilt camera. Pans 270° & tilts 360°
- Live metallic vertical launch through 160mm hole
- Excavation of only 1.2m x 1.2m required on 48" main
