

SERVICECAM PE+M

- Up to 20 meter insertion from an ECV
- 5 hour battery life
- Portable 5.4" screen
- Insertion round up to 3, 90 degree short radius metallic bends
- Variety of Serviguides for different valve types

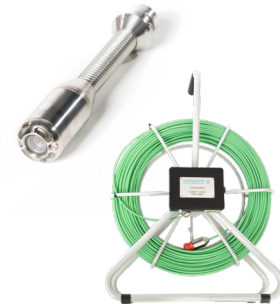

SYNTHOCAM S195

- Live access into 55 to 90mm PE pipes through 32mm or 63mm Top Tees
- Up to 80m insertion from a single direction
- Near full circumferential vision
- Can be used on metallic pipes

SYNTHOCAM PE (63mm to 180mm)

- Live vertical access into pipes through 63mm high flow Top Tees
- Up to 80m insertion in a single direction
- 24mm diameter camera
- The global number one for PE live gas pipe inspection

SYNTHOCAM PE (90mm to 355mm)

- From 90mm to 355mm full circumferential vision system
- 6mm diameter rods for maximum push distance
- 30mm diameter camera
- Live vertical access through 63mm High Flow Top Tee

SYNTHOTRAX PE

- Up to 1200mm full circumferential vision up to 200m from the access point
- Live access vertically through a 250mm diameter branch saddle
- Up to 400m insertion from a single excavation
- Award winning robotic system
